Conflicts to Cuba.

NEW YORK, July 10,—A special to the Hernid from Havana, Cuba, says: Rebel bands hovering in the districts just beyond Guanabacoa are more active this afternoon. Recently they fired upon various government posts in the outskirts of the city, the Spanish garrisons in the Santa Marla and other forts, in the suburbs, responding with desultory firing. For half an hour there was great excitement. The insurgents finally retreated, carrying their wounded with them. The attacking parties neither killed nor woundtd any member of the garrisons.

The programme had been arranged with the greatest skill and forethought to meet the inclinations of nearly everybody, and no excuse was left open for fallure to attend the services sometime during the day through the lack of attractions. In the evening Rev. F. J. Stanley spoke at Tent Washington as follows:
Touted the Christian Endeavor button, as electric current, and the thrill is felt at the four corners of the globe.
This world for Christ! Most certainly. The decree declared, per Paslin 2, verses 7 and 8: "I have declared the decree, " " Thou art My Son, " " *Ask of Me and I shall give Thee the heathen for Thine inheritance and the uttermost parts of the earth for Thy possession."
The four grand lines along which the Christian Endeavorers now labor, as four cardinal points of the compass, "The World for Christ," the north or magnet to which the needle ever points, guiding the unified body. "Evangelical Endeavor," "Christian Citizenship," and "Itescue of the Sabbath," the other three cardinal points.

tury—as the century of centuries. These by young people, as a rule, and for the young:

Andern Sabbath School (Robert Raikes, little over forty), in 1781, for the young; modern mission movement, in 1794, by young William Carey, and in 1896 by young students in Williams College, of America; Y. M. C. A., in 1814, by young George Williams, in London; the climax of all, the young pastor in Portland, Me., in 1881, (only fifteen years ago), glylag to the church the Chelstian Endeavor organization, for, and by the young of the world. This culmination of all the previous great movements of this marvelous century of centuries.

The two prime ministers, at the one-tenth of the human race yet to have this Bible translated into their tongue or dialect, and that, predicts an able authority, will be accomplished in less than fifteen years at the present rate.

Nearly one and a half millions of communicants sit down to the Lord's table in heathen lands to-day. A hundred years ago scarcely a hundred, says one, and but five missionary societies, whereas, to-day; there are 139, besides there many hundreds of auxiliaries.

What means this? The time has come for the Christian Endeavor army to march in and largely be God's instrument to take this world for Christ.

What hath God wrought aiready in this century?

The Bible translated into 556 languages and liberts active to the content of a second of the christian Endeavor army to march in the this century?

What hath God wrought already in this century?
The Bible translated into 386 languages and dialects, so that nine-tenths of all the race can read (not do, but may read) the Word of God in their own tongue; whereas 160 years ago but forry-four languages, all told, as the result of eighteen centuries translation previous to this nineteenth century. Were our ancestors of seventy-five and a hundred years ago to return fortwenty-four hours to this mundane sphere, they would stand aghast at the wonderful achievements, as they look at this world moved mightily by gas, steam and electricity!

But gas, steam and electricity have been latent powers in and around this earth for thousands and millions of years. Only within the last seventy-five years have those latent powers been developed to produce such marvelous results.

Twenty-five years hence some will stand on the platform and marvel that for centuries the church allowed the powers and talents of the young to remain latent, and only within the past half century, it will then have been in 1950, A. "The disease was first felt in the hip
and soon logame severely painful,
Within a short time the whole lower

"My condition seemed a hopeless one and I was much discouraged, when by chance I happened to read an account in the Wheeling Intelligencer of the wonderful cure of a person afflicted like myself, that Dr. Williams', Pink: Pills for Pale People had effected. This was some time in the month of December. I immediately procured a box and began to use them. A change commenced at once, About the middle of the winter a big snow fell, and, having a family of five children, it seemed imperative that I should make up for lost time and was compelled to venture out in cnow up to my knees or thereabouts. I worked out in this deep snow all the day. When I rottred that night I hardly expected to rise the next morning. I thought the exposure would surely bring the malady back, but such was not the case.
"I suppose the pills had put my system in such a healthful condition that it was impregnable. I felt no bad effects whatever. For seven months previous to taking the pills I had no appetite and became much emaciated. I had no strength and felt more dead than alive, except that the sharp pains running through my body almost constantly, and particularly so if I attempted to

To-day I am a well and sound man. The pills not only cured my rheumatism, but drove that troublesome pain from my heart as well. For more than a year now I have not been troubled in the slightest with either manday, or any other for that matter. I am a strong man and perform as much manual labor as any farmer. Why, just this very day I walked fifteen miles, by having falled to secure railroad transportation, as I expected when I left home this morning. When I was afflicted I could not walk fifteen rods, but to-day fifteen miles tired me but little. Oh, there is no mistake about it. The pills cured me and I know it. I tell this only for the benefit of my fellow men, and hope that all thus afflicted will not endure long suffering, but get the pills and use them at once. They not only give relief, but they cure."
